The City of Norman is completing debris removal from the recent storm. Citizens are reminded to separate vegetative material from construction and demolition debris including building materials such as wood fences, roof shingles and lumber. The City will not pick up household items such as mattresses, couches, furniture, etc. These items should be taken to the City Transfer Station located at 3901 S. Chautauqua. Residents are also reminded not to place debris in the site triangle of street intersections.

On Monday June 20, 2011, the City of Norman began clearing the vegetative debris generated by the June 14, 2011 wind storm. The City's debris removal contractor is TFR Enterprises, Inc. Their hours of operation are from 7:00 am to 7:00 pm, including Saturday, July 2, 2011. No debris will be collected on July 3 – 4, 2011. Collection will restart on Tuesday, July 5, 2011. Citizens should have all debris placed at the street by July 1, 2011.

Debris removal in city parks has been completed.

The target areas for debris pick up will be from Berry Road to 48th Avenue N.E. and from Lindsey Street to Rock Creek Road. Those citizens in areas outside of the target area will receive service but perhaps on a different schedule by calling in their location to 366-5396 or 366-5452 by July 1, 2011.
